"...dress up for any occasion."

1. Can you share with us how Make-Up by Gabby D came to life?

Makeup by Gabby D started since I was a child. I've always been that girl who loves to be creative and always dress up for any occasion.

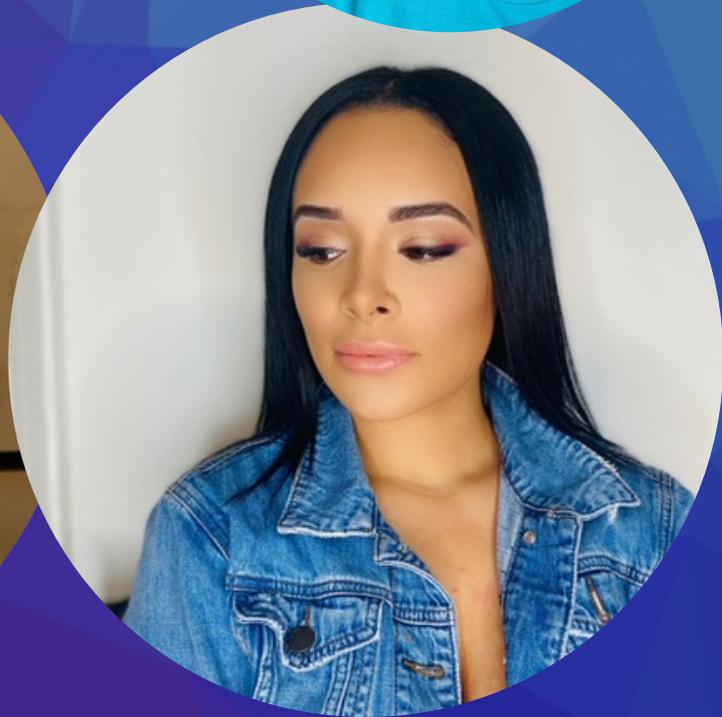

My friends were my first clients because they always asked me to do their makeup.

I believe that's the point in my life where I decided I needed to stop working, stop doing things that don't make me happy, and do something where I could express myself by doing what I love.

2. Without sharing too many secrets, what makes the Gabby D experience unique?

"The Relationships I create with my clients"

3. During a makeup session, what reaction have your customers had when seeing their faces transform?

"All my clients are beautiful..."

All my clients are beautiful, so it makes my job easier.

But I do love to see how my clients start to get more confident as the makeup is being done.

4. Can you walk us through your creative preparation process or mantra before beginning a make-up session on a client ?

I always like to get to know my clients while we are planning what look we are going to do.

Also, I follow them on Instagram before our appointment to understand their style.

5. What's the brand vision for Make-Up by Gabby D? In other words, what's next or the next level for Make-Up by Gabby D?

My salon is my next step.

I'm going to make a salon that express the wonderland I have in my mind.

It's going to be colorful, creative and magical.

"Express the Wonderland ...

I have in my mind"

WRITTEN BY D&A BRAND MANAGEMENT CO.
PHOTOS BY @TATTOOBAMBAM

1. Can you share with us how The Prodigy Tattoo Gallery came to life?

My Name is Tattoo Bam Bam. I was Born in South America in Cali Colombia and I'm currently a Resident Artist of 10 Years in Miami Florida.

"The Prodigy Tattoo Gallery" Was Established in 2020 in the mists of the Covid-19 Pandemic. Despite everything Happening in the world, I was optimistic and always had the ambition that in the 10 years of my career, I would someday open my first Tattoo Gallery.

*"I was optimistic
& always
had ambition..."*

My Mother at that time was in her early 20's and sacrificed everything by herself coming to America to seek a better future for me.

I underwent Spine Surgery in 1990; and let me tell you, the recovery for that, and a lot of physical therapy to be able to walk again and be able to hold objects, after my Spine Surgery and Physical Therapy, I developed an exceptional **Artistic Prodigy during my recovery.**

I was able to Walk again and hold objects in my hands without dropping them; **I developed a passion for Art.**

The word Prodigy is a young person that has an extraordinary talent or ability and it Derives from the Latin meaning "Gift / Omen or a sign of something to Come".

As a Child Growing up, I was Diagnosed with a very Rare Disorder Called Cerebral Palsy - this Affects Body movement and muscle coordination.

I came to America in 1989 with my Mother in hopes of a Doctor that could Treat my condition,

*"Prodigy...
extraordinary
talent or ability..."*

2. Without sharing too many secrets, what makes the The Prodigy experience unique?

The Prodigy Tattoo Gallery is a very different style of business and will offer a very exclusive one-on-one experience.

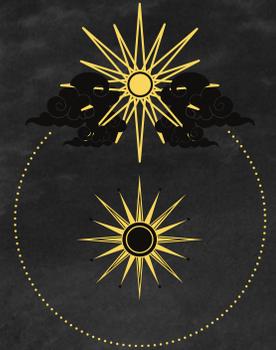

"Self worth says never cheat yourself."

That's why our goal is to provide the best Quality and Experience you deserve!

A wise person once said, "Your Actions are what dictates and separates you from others."

3. Can you walk us through your creative preparation process or mantra before tattooing a design on a client ?

Its very important to always have communication and a clear understanding with your client when doing a design, what they are getting that day of the session, and how the design they are getting will complement the composition of the area they are getting the tattoo done.

I then proceed to designing the Tattoo they are requesting, and the day of the Tattoo, the stencil is already designed and ready to scale the image to fit the area the tattoo is going.

4. What reaction have your customers had before getting a tattoo and the overall experience when it's over?

Every Tattoo has its own unique story behind it. Every reaction and experience is different. For instance, Memorial Tattoos are done to honor those who have passed, and most of the times, those Tattoos produce a very emotional reaction on the clients behalf.

"Every Tattoo has its own unique story..."

You know in these types of situations, losing a loved one is probably the hardest things anyone has to endure. God placed me here in this person's life for a reason, to speak to them, to lift their spirits in hard times.

"God placed me here... for a reason..."

It's more than just a tattoo, it's a moment where that person can vent, and its my goal in this situation to give them the comfort of finally having some sort of closure for the situation they are going through.

Being able to carry a loved ones memory on the body forever -- its very rewarding at the end to be able to see them smile, despite the situation.
